Local voices talking about wind energy in Michigan

Wind energy is helping Michigan's rural communities thrive. When a community hosts a wind project, everyone who lives there wins. Listen to what landowners and township officials in Huron and Gratiot counties have to say about what it is like to have wind parks in their communities.

Scientists for a day, lovers of the lakes for life

Getting kids to focus can be tough. Getting them outdoors can be a chore. But tell them their classroom for a day will be on a sailboat on Lake Michigan and odds are good they'll be aboard.

Reviving the skilled trades in Detroit

Generations of skilled tradespeople built the Motor City, put the world on wheels, and created the American middle class. In recent decades though, interest in skilled trades careers has diminished among youth and young adults nationwide along with vocational education options.

Kids show how to party at Beacon Park birthday bash

Laughter and smiles from hundreds of children replaced ceremony and speeches on Saturday at the one-year anniversary celebration of Beacon Park in downtown Detroit. Event organizers marked the first year of Detroit's newest public space with a party for children in foster care and those living in low-resource neighborhoods.

DTE Energy Breaks Giving Back Records

DTE Energy's Care Force volunteer efforts blanketed Michigan and beyond in August for Month of Caring, and its teams crushed all of the records from last year. Not only did DTE increase its volunteer hours, but the company more than doubled employee engagement.
